WATER SOFTENERS

**NK FILTER
SERIES**

The NK filters

with their interchangeable filter cartridge, remove impurities from the water that are not visible but which could block the flow through the equipment.

Each NK filter is designed to be easily installed on the softeners.

The NK filters are available in two sizes of 5" and 9" and can have two types of filtration, the first with wire-wound cartridges, the second with activated carbon cartridges, the latter for the elimination of odors or bad flavors from the water.

It is recommended to install the filter before the softener, to clean the water before entering the softener.

FILTRI NK wound cartridge

FILTRI NK carbon block

The packages NK111 - NK112
NK123 - NK124
NK223 - NK224
contain:

- 1 housing
- 1 nipples kit
- 2 cartridges on wood
- 1 filter key

The packages NK111C - NK112C
NK123C - NK124C
NK223C - NK224C
contain:

- 1 housing
- 1 nipples kit
- 1 carbon active cartridge)
- 1 filter key
